Ms Yuen,

I am writing to thank you for the help and services offered by your company in relationship to the international professional training and internship jointly organized by One-To-One International and Globalview Business Consultants Limited.

One-to-One is an organization based in Europe to organize young executives and university graduates to come over to Asia to enrich their experience in Asian business environment. Fine2fine.com has been one of the partners in providing such services.

The first German MBA student that was sent to Find2fine.com found the training offered by your company very professional and useful for his career development. The learning experience was highly appreciated by the student. The whole training environment had provided an exposure to Chinese enterprises and cultural background for doing business in China, the training had also provided hands on experience to help Chinese enterprises to explore overseas business opportunity.

Based on the result and feed back of the first student, we have a number of referral from Germany about possible future training arrangement with your company. I am looking forward for further cooperation with your company on international executive training and other consulting services.

Yours truly,

Martin Hui  
Director
