

Student Development Services

29 January 2004

Ms Circle Yuen,
CEO
Find2Fine Management Consultants

Dear Ms Yuen,

South China Explorer Programme

We would like to express our gratitude to your company for provision of internship opportunities to 17 students from City University of Hong Kong. Through the fresh fruit market study project, students have learnt essential knowledge in designing work objectives as well as skills in collecting and interpreting market information. The valuable training in handling consultancy project will be an asset for students' future study and career. We have received very positive feedback from students.

Thank you again for your support in student development activities. I look forward to having similar cooperation in future.

Yours sincerely,

Cherry Lum
